

# 2015 Subject Index

17 beta-hydroxysteroid dehydrogenase type 3..	249	Delta-4-androstenedione.....	249
17-hydroxyprogesterone .....	329	Depression .....	57
18Fluorine-L-dihydroxyphenylalanine positron emission tomography scan .....	86	Dermal .....	155
25-hydroxyvitamin D .....	134,294	Diabetes.....	1
45,X/46,XY gonadal dysgenesis.....	336	Diabetes insipidus.....	340
46,XY disorders of sex development.....	249	Diabetic ketoacidosis .....	49,109,203
46,XY pure gonadal dysgenesis.....	159	Diabetic nephropathy .....	274
Acanthosis .....	63	Diabetes mellitus .....	274
Achilles.....	333	Diagnostic features .....	27
Adipose.....	19	Diazoxide.....	86
Adolescent.....	57,63,121,128,134,222,228,333	Doppler .....	333
Adolescent growth.....	235	Dual ectopic thyroid .....	148
Adolescent schoolgirls.....	312	Dysgerminoma.....	336
Ambulatory blood pressure.....	13	Dyslipidemia .....	228
Amenorrhea .....	159	Endocrinologic problems.....	253
Anastrozole .....	242	Environmental factors .....	163
Antioxidative state .....	109	Epidemiology of type 1 diabetes mellitus.....	49
Anxiety.....	57	Event-related potentials .....	102
Appetite regulation.....	197	Exercise capacity .....	217
Arterial stiffness.....	268	Eye .....	155
Associated problems .....	27	Fat-free mass .....	45
Autoantibodies.....	49	FGFR3 gene.....	73
Autoimmune .....	80,349	Final height .....	301
Bicalutamide .....	242	Fructose .....	19
Bioelectrical impedance.....	45	Galactosemia .....	83
Birth weight .....	168	GATA binding protein 3 gene .....	344
Body fat .....	45	Gene .....	323
Body mass index .....	280	Genetics.....	323
Body mass index charts .....	184	Glucose.....	168
Bone marrow transplantation.....	349	Gonadoblastoma.....	336
Breast development.....	159	Growth charts .....	184
Breast enlargement .....	192	Growth hormone deficiency .....	37,77
Calcific tendinitis.....	333	Growth hormone therapy.....	77
Capillary blood glucose.....	83	Growth hormone treatment.....	301
Cardiac functions .....	307	Growth monitoring.....	260
Central fever .....	77	Growth spurt.....	235
Child.....	98,340	HADH mutation.....	144
Childhood.....	37,163	Hashimoto thyroiditis.....	128
Childhood program.....	1	HDR syndrome .....	140
Children.....	7,27,80,102,128,144,175,222,228, 253,260,280	Height .....	260,280
Chondrodysplasia punctata.....	69	Height reduction .....	260
CLCN7 .....	357	Hematopoietic stem cell transplantation .....	349
Cognition.....	203	High-dose hook effect .....	329
Cognitive functions.....	102	Histopathological effect .....	19
Congenital adrenal hyperplasia .....	13,329	HPA axis.....	114
Congenital hyperinsulinism.....	86,151	Hyperandrogenism.....	63
Congenital hypothyroidism.....	238,307,323	Hyperinsulinemic hypoglycemia .....	144
Conjugated bilirubinemia .....	83	Hyperparathyroidism .....	333
Continuous glucose monitoring sensor .....	151	Hypertension .....	175
Cyproterone Acetate.....	242	Hyperthyroidism.....	349
Deafness.....	344	Hyperthyrotropinemia .....	211
Deficiency .....	128	Hypoglycaemia.....	86
Dehydration.....	203	Hypoparathyroidism .....	344
		Hypopituitarism.....	77
		Hypothyroidism .....	148

# 2015 Subject Index

Hypothyroidism.....	211	Premature adrenarche.....	45
Idiopathic short stature.....	301	Preschool age.....	114
Immunoassay.....	329	Prevention.....	163
Infant.....	140,294	Pseudohyperglycemia.....	83
Inflammatory myofibroblastic tumor.....	340	Pseudohypoadosteronism.....	155
Insulin.....	168	Pubarche.....	45
Insulin sensitivity.....	121	Pubertal staging.....	235
Insulin-like growth factor deficiency.....	301	Puberty.....	45
Ketoconazole.....	242	Puberty education.....	312
Kidney.....	19	Pulmonary functions.....	217
Kisspeptin.....	192	Rat offspring.....	19
Large for gestational age.....	168	Renal dysplasia.....	344
LHCGR gene.....	355	Rhizomelic.....	69
Liver.....	19	Risk factors.....	294
Low-grade inflammation.....	268	S100B protein.....	109
Macrosomia.....	168	Seasons.....	49
Management.....	80	Self-esteem scores.....	63
Mass.....	148	Sirolimus.....	86
Menstrual pattern.....	312	Skeletal dysplasia.....	73
Menstruation.....	159	Skin.....	155
Metabolic effect.....	19	Social support.....	57
Microalbuminuria.....	274	Subclinical cardiovascular disease.....	13
Microolithiasis.....	242	Subclinical hypothyroidism.....	102
Molecular.....	323	Survey.....	37
Mutation.....	69,323,355,357	Tall stature.....	260
N-3 polyunsaturated fatty acids.....	121	Target height.....	260
Nationwide study.....	27	TCIRG1.....	357
Nesfatin-1.....	197	Tendonopathies.....	333
Neuroinflammation.....	203	Testotoxicosis.....	242,355
Neutrophil gelatinase-associated lipocalin.....	274	Thanatophoric dysplasia.....	73
Newborn.....	155,192,307	Thyroid dysmorphogenesis.....	238,323
Nifedipine.....	151	Thyroid peroxidase.....	238,323
Non-alcoholic fatty liver disease.....	121,222	Thyroid volume.....	98
Normal puberty.....	312	Thyrotropin-releasing hormone.....	211
Normative data.....	98	Traumatic brain injury.....	77
Novel.....	69	Turkey.....	1,49
Obesity.....	7,63,121,163,175,217,222,228	Turkish children.....	184
Octreotide.....	151	Turner syndrome.....	27,184
Ophthalmic.....	155	Type 1 diabetes.....	57
Oral glucose tolerance test.....	7	Type 1 diabetes in children.....	49
Orexin-A.....	197	Type 2 diabetes mellitus.....	268
Osteopetrosis.....	357	Ultrasonography.....	98
Overgrowth.....	260	Underweight children.....	197
Oxidative state.....	109	Urban environment.....	163
p.R367X mutation.....	140	Urine IP10.....	175
Pancreatectomy.....	86	Urine MIG.....	175
Parathyroid adenoma.....	333	Vitamin D.....	128,294
Peak height velocity.....	235	Vitamin D deficiency.....	134
Periaortic fat thickness.....	222	Vitamin D insufficiency.....	134
Peroxisomal disorders.....	69	Weight.....	280
PEX7.....	69	Whole exome analysis.....	357
Polyendocrinopathy.....	80	Youth and adolescent.....	268
Posterior fossa tumours.....	253	β3-adrenergic receptor gene polymorphism.....	7
Pre-pregnancy BMI.....	114		
Pregnancy weight gain.....	114
